

ALCOHOL AND DRUG TESTING OF BUS DRIVERS

The Board of Education recognizes the dangers inherent in alcohol and controlled substance use by employees, especially those in safety-sensitive positions. To ensure the safety of its students and to comply with federal regulations, the Board requires alcohol and controlled substance testing of school bus drivers employed by the independent contractor(s) that provide student transportation services. The district will require that the contractor provide proof that it has implemented a testing program. The Superintendent or his/her designee is charged with the responsibility of periodically reviewing the contractor's compliance with this requirement.
